REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The claims are patentable over the Okikawa reference because they claim a dissipating device having a body with a surface coated by at least two different metals, as recited in claim 1. Okikawa teach a dissipator body formed of a laminate of two different metals that can be formed into a sheet, and possibly laminated with a sheet of copper. No plating or coating with different metals is taught or suggested; even if the copper sheet 22 is construed as a plating or coating, it would not have been obvious to replace the single metal copper sheet with a sheet of at least two different metals, as there is no teaching or suggestion of the desirability of replacing the uniform layer of high conductivity copper with a layer of two or more different metals.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Allen J. Flanigan whose telephone number is (571) 272-4910. The examiner can normally be reached on M-F.
